## Lightfast Color Chart

### Lightfast Rating System

Lightfastness is the ability of a color to retain its original characteristics and/or withstand the effects of light over time. Prismacolor tested lightfastness in accordance with ASTM D6901-06, and has established this lightfastness rating:

I - Excellent II - Very Good III - Good IV - Fair V - Poor

Product Color 

Color Name **Violet** III

Pencil Number — PC932 • 3360

Art Stix Number — AS1932 • 77184

Item Number —

\*Only products with an item number are sold individually
